# Create a look you *love.*

Your home is your very own design masterpiece—and it's filled with things that make you happy, whether that means bright pops of colour or subdued hues, soft florals or bold stripes, the latest trends or simple classics.

With **Bali custom window treatments**, your creative vision can cover your windows, too. Searching for shades? Ours can lift and lower with one touch of a single button, insulate, block UV rays, and more. Dreaming of drapes? We've got vibrant colours and picture-perfect patterns. Baffled by blinds? We're pros at helping you figure out what will work for you.

And we're really excited to help you get started. Flip through these pages to explore our options. Take advantage of our expert measuring tips. Then, when you're ready, visit your local Lowe's to start bringing your look to life.

# What do you *need* ?

Every room in your home serves its own unique purpose—and that means each window needs something a little different. But how do you know what to use where?

It's simple: think about how and when you spend time in each room.

## convenience

Easily raise and lower shades with **Bali AutoView** motorized lift, powered by Somfy (page 4).

## durability

**Faux wood blinds** (page 12) withstand your bathroom's humid air.

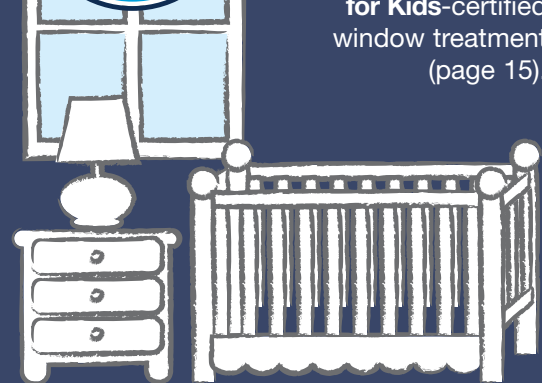

## coziness

Block chilly air in your bedroom with **cellular shades** (page 6).

## safety

Go cordless in kids' rooms with a **Best for Kids**-certified window treatment (page 15).

# Press to impress

The simplest solution is often the best one. Whether you're considering motorized lift for an out-of-reach window or simply for the wow factor, with Bali AutoView motorized lift, you'll enjoy easy, automatic light control with the push of a button.

## Privacy

Bali AutoView helps maintain your privacy, integrating with home automation systems so you can control your shades remotely or set them on a schedule.

For shades with the ease and convenience of **Bali AutoView motorized lift**, watch for the Bali AutoView remote icon in this edition of Bali Solutions—it will help you find which window treatments can be ordered with motorized lift.

## Simplicity

Anything but ordinary, the small remote included with Bali AutoView motorized lift does the heavy lifting or lowering with a single push. Or add a single-channel remote programmed to control multiple shades as a group for convenience.

## Safety

Bali AutoView motorized lift provides streamlined style and safety, too—this sleek upgrade eliminates exterior cords, which is safer for homes with kids and pets.

## Convenience

Windows are beautiful, but they can also present an access issue. When they're behind furniture, a sink, or up too high to reach, Bali AutoView motorized lift to the rescue!

## The Case for Motorized Shades

Kim and Scott Vargo, popular home renovation bloggers of Yellow Brick Home in Chicago ([yellowbrickhome.com](http://yellowbrickhome.com)) installed Bali Tailored Roman Shades with motorized lift and wrote about their experience for the Bali Blinds blog.

*"The convenience, of course, can't be beat!" Kim writes. "There are no cords to contend with, which leads to the next reason—safety. Our cats enjoy nothing more than lounging on our sills, and our dogs can't help but prop themselves up to watch the world go by."*

Another practical, but major benefit of motorized lift: Kim's white, custom Roman shades stay cleaner longer.

*"Will we continue to use motorized window treatments around our home? Yes!" she writes. "We'd do it for the ease of use. We'd do it to keep those treatments cleaner for longer. (No fingerprints on our white fabric!) And, with all the time and energy we've poured into our home, the seamless look of a cordless window allows the treatments to shine, not the mechanics."*

# Energy + your windows

The average U.S. household uses 42% of its energy on space heating and 6% on cooling.\*

That means nearly half of what you pay on your monthly bills goes toward keeping your house at a comfortable temperature.

Your windows may have a great view, but they also let heat out—and that heat loss can account for 10% to 25% of your heating bill.\*

Luckily, Bali DiamondCell™ Cellular Shades are built to help insulate.

Their honeycomb-shaped cells trap air to keep heat from escaping out in the winter...

...which means they reduce winter heat loss by up to 22%.\*\*

And they can block the sun's rays, so they also slash summer heat gain by up to 56%.\*\*

The bottom line? Covering your windows with **Bali Cellular Shades** will help you save money on your monthly bills.

\*According to the U.S. Department of Energy. Visit [energy.gov](http://energy.gov) to learn more.  
\*\*Based on third party testing, Architectural Testing Incorporated (ATI).

I need... to decorate, insulate, and *save*.

Combination Shades with Cordless Lift: 1-in Pleated Shade: Westport, Bone 3101 (top) and ¾-in Double Cell Cellular Shades: Libretto, Birdbath 2055 (bottom)

**Bali Cellular Shades** are much more than colourful, appealing fabric. They keep light out, they protect privacy, they absorb sound, and—most importantly—their honeycomb-shaped cells trap air to help insulate your home and save money on your energy bills all year long.

- Nearly 200 fabric possibilities, from classic neutrals to on-trend colours and patterns
- Four opacity options and three cell size choices
- Cordless and motorized lift options are safer alternatives to standard operating cords
- **VertiCell™ Cellular Shades** for wide windows (photo on page 11) are made of the same fabric—great for easy coordination

What's our most energy efficient option? Definitely the Midnight collection. This innovative blackout fabric is constructed of three layers—an insulating blackout liner sandwiched between soft spunlace. It's especially popular for bedrooms and media rooms, but works in any room that needs insulation, light control, and privacy.

# I need... a *glamorous* look for my living room.

2-in Northern Heights Wood Blinds with Cordless Lift/Wand Tilt and 3-½-in Traditional Valance: Rustic Lodge 1702

You don't need an unlimited budget to impress your houseguests. A few décor touches should do the trick—and nothing spells luxury quite like the relaxed natural charm of real wood. Set the scene with **Bali Northern Heights™ Wood Blinds**. They're simple, they're timeless, and they'll make your windows the unpretentious star of any room. Wood is a natural insulator, so they'll also help keep your home cool in the summer and warm in the winter.

- Crafted from sustainably harvested, 100% North American hardwood
- The paints, stains, and unique finishes are designed to blend seamlessly with existing finishes on trim, flooring, cabinets, and furniture
- Different slat sizes give you different ways to perfect your look and your view
- Optional decorative cloth tapes dress blinds up and keep light out

**Bali Wood Blinds are 100% recyclable, including slats, steel headrail, and plastic components.**

Need a fancy finishing touch? Our wood cornices cover headrails and hardware, and they're available in all the same paints and stains as our wood blinds.

Dolphin 1765

Acorn 1849

Peppercorn 1054

We care about the environment as much as we care about making your home look good. That's why we craft **Bali Wood Blinds** from eco-friendly materials.

Our wood is responsibly harvested through sustainable yield forest management, a technique that makes sure we're not just taking trees out of the forest—we're making sure that more trees are growing in their place.

It's also local. Our processing plant in Grayling, Mich. sources wood directly from nearby lumber mills. Less travel for raw materials equals lower carbon emissions.

I need... an *exciting* update for my wide windows.

Crown Vinyl Vertical Blinds with One Touch Wand Control and Square Corner Valance: Quinn, Irish Oats 3897

Long-lasting, built to glide open with ease, and available in a range of styles, **Bali Vertical Blinds** make tried-and-true tradition feel brand new. Our spin on this staple in home décor combines reliable light control with affordable durability, so your wide windows and patio doors get the best combination of fashion and functionality.

- **Bali Sheer Enchantment Vertical Blinds** layer luxurious sheer fabric over light-blocking vinyl vanes; fabric is easy to remove and machine washable
- **Bali Fabric Vertical Blinds** come in a variety of designer-inspired colours and patterns
- Classic **Bali Vinyl Vertical Blinds** coordinate easily with **Bali 2-in Vinyl Horizontal Blinds**

## I need... a great fit for my wide windows.

Wide windows and patio doors present a unique decorating challenge: your window treatment has to be practical, but you also want it to be pretty. Vertical blinds are an excellent choice—but if you're looking for something a little different, you can also try one of these on for size:

- Sleek **Bali Sliding Panels** are a contemporary accent that can cover wide windows or divide a room; available in solar, roller, Roman, and natural shade materials
- Insulate with the vertically-flipped cellular fabric of **Bali VertiCell™ Cellular Shades**
- **Bali Natural Drapes** combine the appeal of renewable resources with the gentle flow of drapery
- Make your room richer with **Bali Wood Vertical Blinds**, made from 100% North American hardwood

2-in Faux Wood Blinds with Cord Lift/Wand Tilt, NoHoles™, and 2-½-in Standard Valance: Natural 5007

You want every window in your home to look fantastic. But humid rooms need more protection against all that moisture. Designed to look like real wood, **Bali Faux Wood Blinds** add sturdy style where you need it.

- An easy way to get the look of real wood at a lower price
- Easy to coordinate with existing wood décor, thanks to a wide range of coordinating colours
- Customizable, thanks to valances and cloth tapes
- Durable and easy to clean

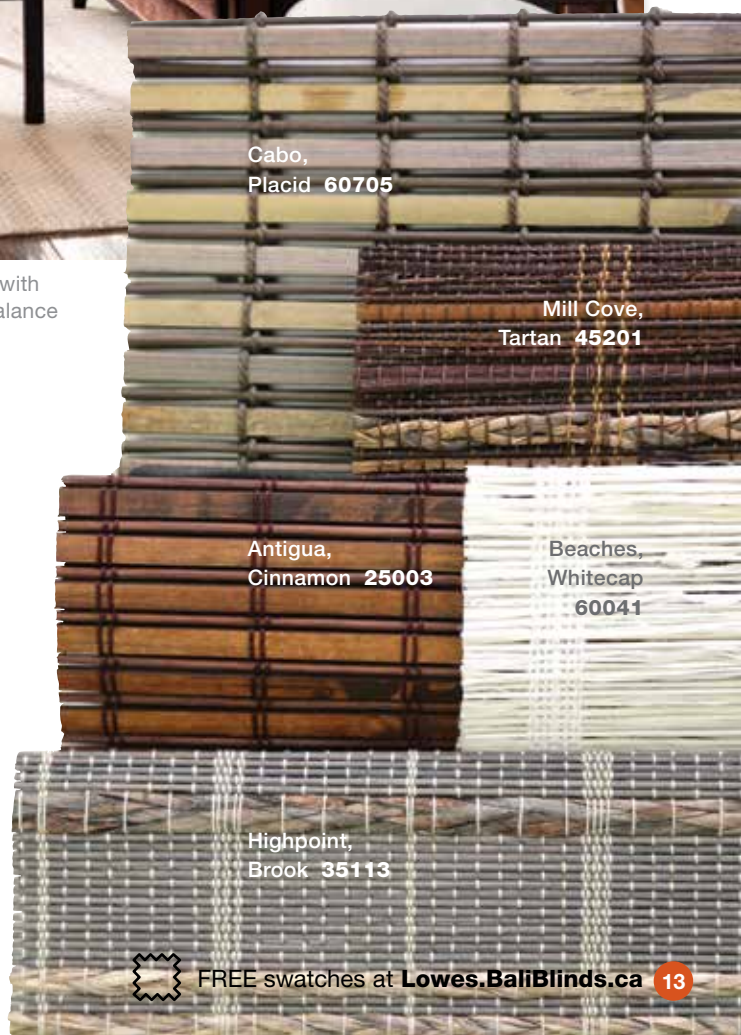

# I need... a naturally *appealing* look.

Standard Roman Natural Shades with Cordless Lift: Highpoint, Brook 35113 with 2-in Edge Banding: Taupe 1007, Room Darkening Liner, and 6-in Standard Valance

Okay, so you're not on a Caribbean vacation. You still deserve to unwind in a place that feels like your own personal resort. **Bali Natural Shades** turn your room into a relaxing retreat, thanks to unique weaves of all-natural renewable resources. With such a rich, exotic palette in your windows, you'll almost be able to smell the sea breeze.

- Each shade is crafted from all-natural materials, including bamboo, sisal, jute, and grasses, so each shade is completely unique
- Available with privacy or blackout liners that will protect your privacy and keep the sun out
- Four control options include cordless lift and Bali AutoView motorized lift, powered by Somfy

Maybe your contemporary living room could use a burst of colour. Perhaps your airy, neutral bedroom needs a finishing touch. Or your eclectic dining room, brimming with one-of-a-kind finds, would feel perfectly polished with an energizing pattern. **Bali Pleated Shades**, available in a wide variety of colours and fabrics, can match nearly any décor. Their structured folds add a simple but vibrant visual texture—just enough to keep things interesting.

- Two pleat sizes: classic 1-in pleats or more modern 2-in pleats
- Choose between sheer, light filtering, and room darkening fabrics
- Add a dayliner or midnight liner to keep out light and protect your privacy
- Unique NeatPleat® back-ladder support keeps pleats evenly spaced and prevents sagging
- Four control options include cordless lift and Bali AutoView motorized lift, powered by Somfy

# Safety is always in style.

Revamping your living room is exciting. Bringing a bold new colour to your bedroom windows might be your favorite home décor project of the year. But nothing is ever as important as your family's safety.

As an industry leader, we've always worked to make sure our window treatments are as safe as they are eye-catching. Now, we're proud to participate in the Best for Kids certification program. This program identifies window treatments that are best suited for homes with young children, so it's easier for you to shop without worrying. Simply put, Best for Kids means best for your family.

Our custom window treatments offer two types of control that are certified Best for Kids:

- **Cordless control** is exactly what it sounds like: control minus the standard operating cords you're used to. You can adjust these window treatments using easy-to-grasp, conveniently placed handles (or a wand).
- **Motorized control** is cordless control's cooler cousin. Bali AutoView motorized lift eliminates standard operating cords, but adds a remote—so all you have to do is push a button to watch your shade move.

Need a Best for Kids certified window treatment?  
Take a look at these product lines:

**Cellular shades**  
**Pleated shades**  
**Solar shades**  
**Roller shades**  
**Roman shades**  
**Natural shades**  
**Wood blinds**  
**Composite blinds**  
**Faux wood blinds**  
**Shutters**  
**Vertical cellular shades**  
**Aluminum horizontal blinds**  
**Sliding panels**  
**Vertical blinds**

# I need... truly *fabulous* fabric.

Think outside the box: use colour blocking to create shapes and highlight hues from your accent pieces and artwork.

Draperies with Grommet Top and Colour Blocking: Coastal, Caribbean 2465 (top) and Coastal, Breeze 2466 (bottom); Seamless Three on One Headrail Tailored Roman Shades with Continuous-Loop Lift and 8-in Valance: Ludlow, City Snow 0644

Height. Drama. Softness. Colour. Creativity. If you're in the mood for a major makeover that mixes all those ingredients, hand-crafted **Bali Drapery** is the key. Create a look that's traditional and luxurious, crisp and modern, or anywhere in between with our broad palette of styles, fabrics, patterns, and colour choices.

- The quality is in the details—double-turned hems, pattern-matched seams, sewn-in liners, bottom weights, and more
- Five available liner options give you variety
- For a coordinating look, consider matching pillows and fabric-wrapped top treatments

## I need... a fabric shade just for *me*.

Flat Bottom Up/Top Down Tailored Roman Shades with Cord Lift and 6-in Valance: Kayo, Indulge 1560

**Bali Tailored Roman Shades** combine a classic look with hand-crafted quality, using the same broad fabric palette as Bali Drapery.

- Four available shade styles fit a variety of décor
- All shades come with a standard liner; other liners available
- Four control options include cordless lift and motorized lift

What's the difference?

**Bali Tailored Roman Shades** offer more fabric and style combination options than Bali Roman Shades—and they're made by hand, so each one is completely unique.

## I need... a *simple* fabric shade.

By matching the functionality of a shade with the soft folds of fabric, **Bali Roman Shades** offer a reliable, easy-to-use option that's still style-friendly.

- Two available shade styles
- Opacities range from light filtering to blackout
- Four control options include cordless lift and motorized lift

Flat Roman Shades with Cordless Lift and 6-in Valance: Dunes, Pearl 3451

# I need... to keep my *view* and keep my house cool.

Solar Shades with Bali AutoView Motorized Lift: Lucence, Mica 40469

If you're seeking sleek protection from the sun, look no further than **Bali Solar Shades**. These modern multitaskers keep glare off your screens, block furniture-damaging UV rays, and help lower your air conditioning costs—all while still letting you see out the window.

- Solar fabric is available in a variety of openness levels and colours, so you can control light exactly how you want
- Four control options include cordless lift and motorized lift

 A solar fabric's openness level tells you what percentage of UV rays it blocks. For example, a fabric with 3% openness lets in 3% of the rays and keeps the remaining 97% at bay.

I need... something *simple* that keeps the light out.

Roller Shade with Continuous-Loop Lift: Buckingham, Julep 02905

Reliable **Bali Roller Shades** aren't new—they've been used in homes for decades. But with so many textures, patterns, and colours available, our roller shades won't ever feel old-fashioned. And because they're so simple to control, these versatile window coverings make every day easy.

- Four opacities give you precise control over light and privacy
- Four control options include cordless lift and motorized lift
- Fabrics coordinate with Bali Pleated Shades, Roman Shades, Vertical Blinds, Sliding Panels, and more

# How to pull it all together

Your windows are just one piece of the puzzle. Creating a spectacular space means playing with all of the possibilities. Grab your notebook and have some fun with it!

1

Take a good, long look at your room. What do you want it to feel like? Everything you use in this room should fit with the feeling you choose. If you want a fresh coat of paint or a new piece of furniture, now's the time.

vibrant  
airy  
energizing  
rustic  
soothing

2

Don't be overwhelmed by window treatments. Remember that you just need to think about what your room really needs. Then, find a colour that speaks to you.

insulation

real glamour

less sun in my eyes

Northern Lights,  
Ocean Liner  
2459

3

Drapery comes with a ton of extra benefits. It adds colour, sure, but it also blocks more light, muffles more sound, and helps reduce heat loss. Think about how you want your room to look, because drapery can make a huge difference there, too—for example, mounting panels just a few inches above your window will make the whole room feel taller.

*more height*

*such drama*

# What do you *love*?

Now that you've thought about what every room needs, it's time to choose your Bali custom window treatments. Which option connects to the rest of your décor? What's the best combination of details and design for your home? Here's a quick refresher on some of our popular product categories and how they stack up against each other.

## Wood Blinds

Upscale, natural glamour crafted from 100% North American hardwood.

## Faux Wood Blinds

The look of real wood at a lower price; designed for humid rooms.

## Solar Shades

Sleek protection from the sun that still lets you see out of your window.

## Roller Shades

Simple, versatile shades available in many textures, patterns, and colours.

## Cellular Shades

Honeycomb-shaped cells insulate your home with style.

## Pleated Shades

Structured folds add a vibrant visual texture.

## Vertical Blinds

Durable, reliable option for patio doors and wide windows.

## Drapery

Hand-crafted soft treatments add lovely layers to your look.

# Measure like a *pro*

Follow the instructions and use the worksheet below. When you're ready to order, you'll have all the information you need!

## tips and tools

- Use a steel tape measure
- Measure every window individually
- For width, measure from left to right

- For height, measure from top to bottom
- Measure to the nearest 1/8-in.
- Always double-check your work

Need more? Visit [Lowes.BaliBlinds.ca/measure](https://www.Lowes.BaliBlinds.ca/measure) for videos and product guides.

### 1 Choose Mount Type

**Inside mount** window treatments are installed inside the window casing, requiring the right depth. Ensure your window is deep enough by visiting [Lowes.BaliBlinds.ca/measure](https://www.Lowes.BaliBlinds.ca/measure) for guidance.

**Outside mount** window treatments are mounted outside the window casing directly on the wall or molding, providing better privacy and light control.

### 2 Measure

For **inside mounts**, measure your window frame depth and confirm it's deep enough. Then, measure the inside frame in three places for width and height.

For **outside mounts**, measure the overall area to be covered.

### 3 Record Your Measurements

For **inside mounts**, record the narrowest width and the longest height.

For **outside mounts**, add extra inches to the width and height for optimum light control and privacy.

Window Location	Window Treatment Type	Mount Type	Width	Height	Depth (for inside mount only)	Colour Name & Number (see store sample book for complete listing)	Additional Options (slat/cell size, control type, etc.)
Bedroom	Wood Blinds	<input checked="" type="checkbox"/> Inside <input type="checkbox"/> Outside	48-1/8 -in	64-3/8 -in	2-1/2 -in	Maple S039	2-1/2 -in slats
		<input type="checkbox"/> Inside <input type="checkbox"/> Outside					
		<input type="checkbox"/> Inside <input type="checkbox"/> Outside					
		<input type="checkbox"/> Inside <input type="checkbox"/> Outside					
		<input type="checkbox"/> Inside <input type="checkbox"/> Outside					

# Plan your *next* move

You've read about window treatments for every room in your home. You've learned how to mix and match design elements. You've written down your window measurements. If you're not sure where to go from here, we have a few suggestions—read on!
